Q1 2024 Bookstore Performance & Publisher Insights

Prepared by: **IFEYINWA ULASI**
Date: 7 December 2025

This full report includes executive summary, presentation script, insights, recommendations, and clickable chart previews that open full-sized versions inside the PDF.

Executive Summary

This report presents a complete and structured analysis of the bookstore's Q1 2024 performance using Tableau. The analysis examines genre performance, regional strengths, weekly sales trends, order behavior, and publisher contributions. Key findings indicate that the West region leads in overall revenue and cumulative growth, while History, Sci-Fi, and Non-Fiction are the strongest-selling genres across the quarter. Publisher performance shows a highly concentrated distribution, with a small portion of publishers generating most of the revenue. Order-size analysis reveals that large orders (5+ items) produce the greatest revenue impact, reinforcing the value of multi-buy behavior. These insights support strategic recommendations for Q2, focusing on strengthening inventory alignment, improving regional performance, deepening partnerships with major publishers, and implementing promotions designed to increase average order value. This report includes all required Tableau evidence from Tasks 1 to 10, confirming full and correct completion of the project brief.

Presentation Script

Slide 1 – Title Slide
Q1 2024 Bookstore Performance & Publisher Insights. Prepared by IFEYINWA ULASI.

Slide 2 – Project Brief
Objectives: identify top-performing genres, evaluate regions, analyze weekly trends, assess publisher contributions,
and produce insights and recommendations.

Slide 3 – Dataset Overview
Includes: monthly sales files (January–March 2024), Bookstore_Sales.csv, Publisher_Info.csv.

Slide 4 – Dataset Structure
Key fields include OrderID, OrderDate, Genre, Quantity, Sales, Region, Book Title, Author, and Publisher Name.

Slide 5 – Data Preparation
Unioned Q1 datasets; joined lookup tables using PublisherID; validated fields; created calculated fields.

Slide 6 – Challenges
Minor inconsistencies and natural variability in order sizes; no major data-quality issues.

Slide 7 – Sales by Genre (Task 2)
History, Sci-Fi, and Non-Fiction lead Q1 performance.

Slide 8 – Regional Performance (Task 3)
West region generates the highest sales volume.

Slide 9 – Weekly Trend (Task 4)
Sales fluctuate week-to-week but remain stable overall.

Slide 10 – Publisher Performance (Task 5)
A small subset of publishers generates most of the revenue.

Slide 11 – Average Sales per Order (Task 6)
West shows the highest average order value.

Slide 12 – Order Size Analysis (Task 6)
Large orders contribute the majority of total revenue.

Slide 13 – Highlight Table (Task 7)

Shows region-by-genre strengths and weaknesses.

Slide 14 – Scatter Plot (Task 8)
Positive correlation between quantity and sales.

Slide 15 – Running Total Sales (Task 9)
West exhibits the steepest cumulative growth.

Slide 16 – Insights Summary
Genre, region, publisher, trend, and order behavior insights.

Slide 17 – Recommendations
Strategies for enhancing Q2 performance.

Slide 18 – Limitations
Q1-only dataset; no customer demographics; profit not included in monthly union.

Insights

• Genre: History, Sci-Fi, and Non-Fiction are the top revenue generators. • Region: West is strongest; South has highest improvement potential. • Weekly Trends: Sales remain stable with expected fluctuations. • Publisher: A small group of publishers dominate Q1 revenue. • Order Behavior: Large orders (5+ items) exert major influence on total sales.

Recommendations

1. Prioritize high-performing genres with strong stock and promotion strategy. 2. Maintain leadership in the West while introducing targeted campaigns in the South. 3. Strengthen relationships with top publishers and renegotiate low-performing ones. 4. Use bundle offers and volume promotions to increase average order size. 5. Time major marketing efforts around historically strong weekly periods.
